

Liceo Scientifico 'Lorenzo Federici' – Trescore Balneario (Bergamo) - Italy

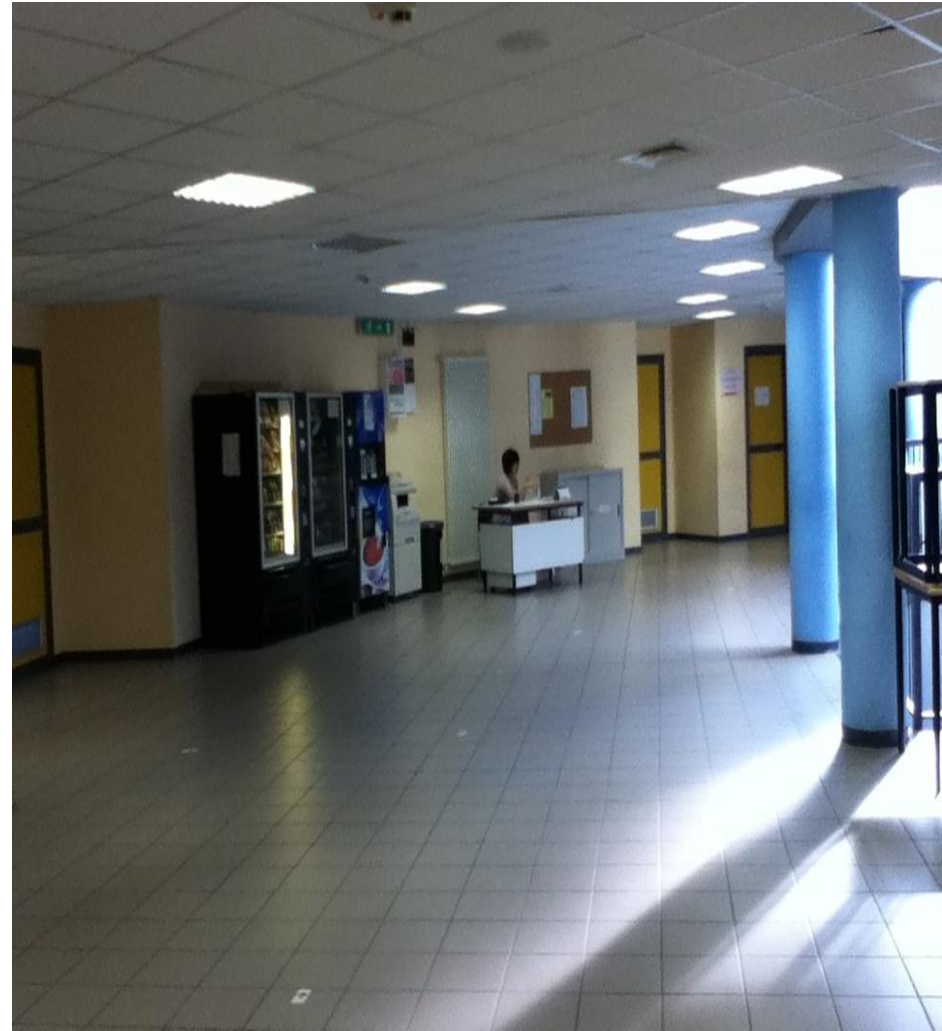

OUR SCHOOL

- Our school is in Trescore Balneario, a small town in the province of Bergamo, in northern Italy.
- Its name is “Lorenzo Federici High School”; it’s near another high school: “Lorenzo Lotto High School”, a technical/professional school. Our school has got six addresses: linguistic, scientific, scientific of applied sciences, humanities, social studies and social-economic.
- The school building is 12 years old but the school is more than 30 years old, even if it had another name in the past.

- Our school has got more than 100 teachers and about 1200 students.
- There are from 20 to 30 students in each class and there are about 50 classrooms in our lyceum.
- In each classroom there is a blackboard, a computer and a video projector.

There are a lot of facilities:

- [two science labs](#)
- [two language labs](#)
- one I.T. room
- [two gyms](#)
- [an athletic field](#)

two science labs

two language labs

two gyms

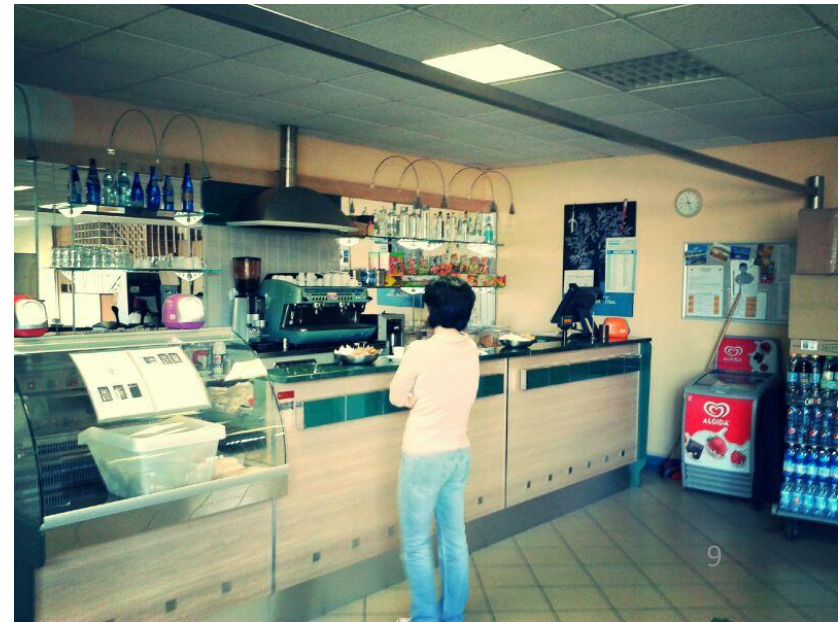

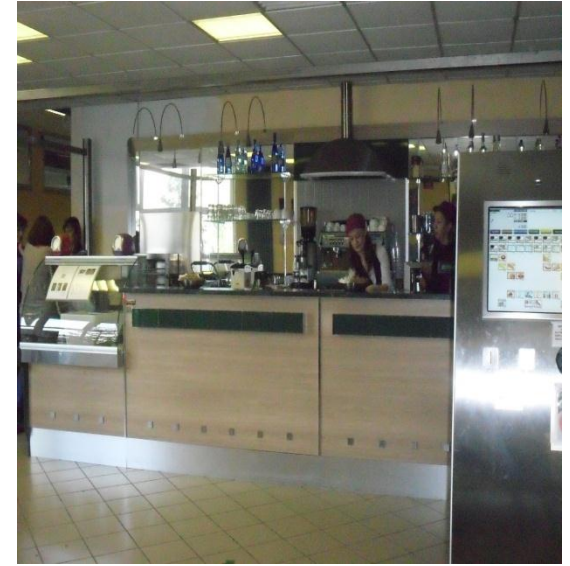

Sometimes we have to go to another gym (out from our school, in a near village) because we share the gyms with the other school.

an athletic field

- In the next school there are other facilities such as a beautiful bar full of food where we can eat a snack during the break, which lasts fifteen minutes. There is an auditorium where we can see films and where assemblies take place and a library, too.

The auditorium

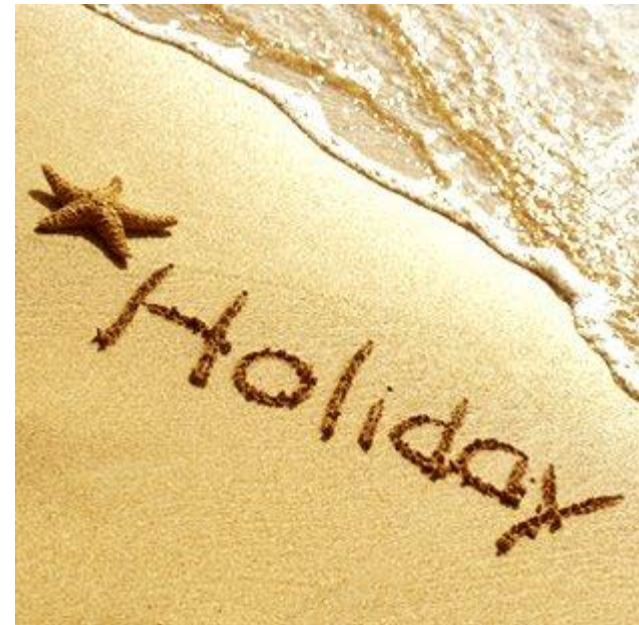

The library

Outside the school we have a graffiti and others are going to be painted soon.

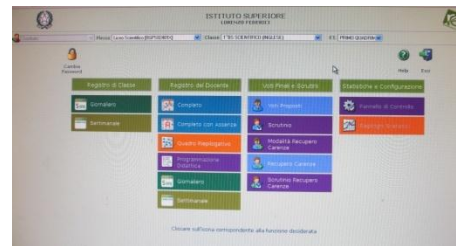

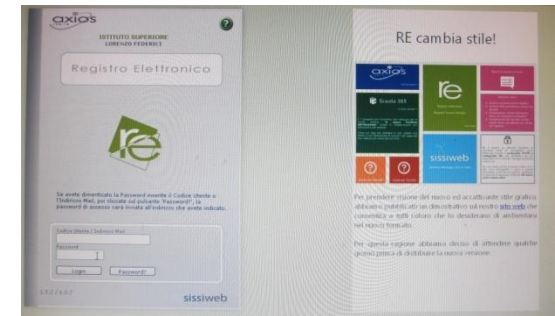

- The school year is divided in two periods: from September to January and from February to June.
- At the end of January we'll receive our report card with the marks in all the subjects and if we are bad at something we'll have a week when we'll do some 'refreshment' activities.
- About the end of June we won't receive a report card but we'll know if we pass or fail from special boards (called 'tabelloni voti') displayed in the hall of the school. If we are bad at some subjects (not more than 3) we'll do special courses and in September, before the new school year starts, we'll have to take exams in those subjects. ☹
- During the school year we have special activities such as workshops, Maths competitions, meeting with important people and a school trip.
- We started lessons on the 12th September 2013 and we'll finish on 7th June 2014.
- And then.....

These years our school has introduced the electronic register, a tool with which parents can see the situation (marks and teachers' comments) of their children at school.

There are weekly morning meetings for parents and teachers and twice a year, in December and March, an afternoon meeting with all the teachers.
